

ACESSO a e-books

Pode aceder aos e-books de duas formas;

1. Através do Catálogo da Biblioteca (disponível em <http://koha.ulusiada.pt>)
2. Directamente através da plataforma de e-books em: <http://www.dawsonera.com/>

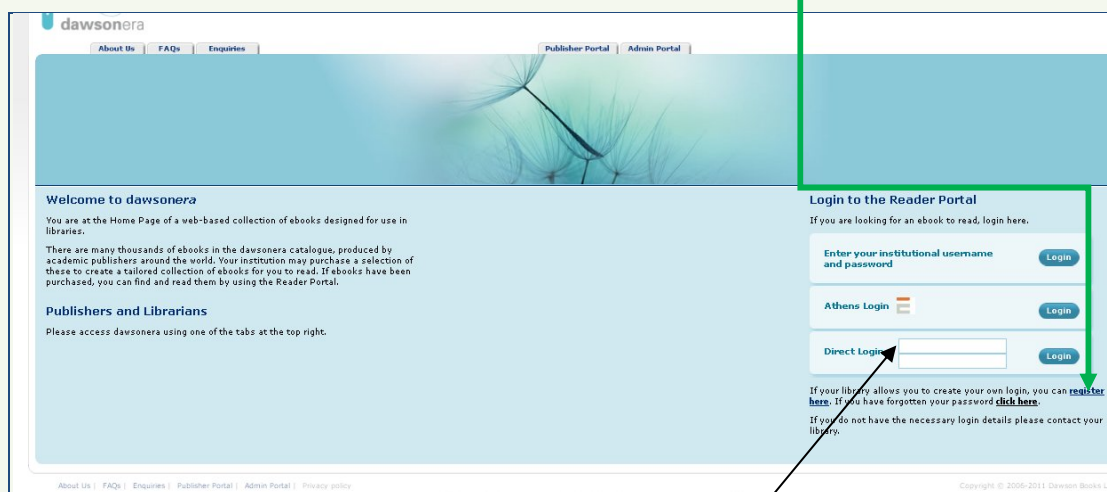

O acesso aos e-books está disponível livremente através do catálogo, dentro do campus da Universidade.

Se efetuar o seu registo dentro do campus da Lusíada, pode aceder igualmente, a partir do exterior.

REGISTO

Quando acede pela primeira vez, deve efetuar o seu registo.

Aceda a : <http://www.dawsonera.com/> e clique em : "register here"

Abre o seguinte formulário:

First name

Surname

Email

This will be used as your username

Confirm email address

Password

Minimum six characters

Confirm password

Os dados colocados no registo (email, password) são aqueles que vai introduzir depois, em "direct login" para se autenticar.

De seguida, visualiza as condições de utilização. Deve aceitar

DAWSONERA Terms and Conditions of Use

These are the terms on which you may make use of the dawsonera Service. Please read these terms of use carefully before you start to use the Service. By clicking on "Accept" you confirm that you accept these terms of use and that you agree to abide by them. If you do not agree to these terms of use please do not use the Service.

Access to the Service

We reserve the right to withdraw or amend the Service to any individual users without notice where we reasonably suspect fraud or misuse of the Service. From time to time we may restrict access to some parts of the Service.

If you are provided with a user identification code, password or any other piece of information as part of the security procedures applicable to the use of the Service, you must treat such information as confidential, and you must not disclose it to any third party. We have the right to disable any user identification code or password, at any time, if in our opinion you have failed to comply with any of the provisions of these terms of use.

Your access to the Service may be occasionally restricted to allow for repairs, maintenance, the introduction of new facilities or services or for reasons beyond our control. We will attempt to restore the Service in full as soon as we reasonably can.

Links to other sites

We have not reviewed any of the websites which link to the Services or to which the Services link. We are not responsible for the content of any other websites or pages and do not endorse or otherwise sponsor such links.

Intellectual property rights

We are the owner or the licensee of all intellectual property rights in the Service and in the material published on it ("Licensed Material"). Licensed Material is protected by copyright laws and treaties around the world. All such rights are reserved.

Subject to the policies of the library or other institution from which you access the Service, you may (subject to the use of valid Access Credits) electronically save an item (either a book or other publication of a chapter thereof) taken from the Licensed Material. You may copy and paste at least 5%, and print at least 5%, of any such item taken from the Licensed Material.

You must not:-

- Sell or re-sell or permit others to sell or re-sell the Licensed Material without our prior written consent;
- Remove, obscure or modify copyright notices, acknowledging text or other means of identification or disclaimers as they appear;
- Alter, adapt, convert or modify the Licensed Material or the format in which it is provided; or make any attempt to do the same, (including, but not limited to, undertaking any act which alters or circumvents (or has the effect of altering or circumventing) any digital rights management protocols applied to the Licensed Material) except where necessary to comply with any applicable law;
- Display or distribute any part of the Licensed Material on any electronic network (including the internet) or any other distribution media;
- Systematically make print or electronic copies of multiple extracts of the Licensed Material for any purpose other than as explicitly permitted by us in writing;

Description:
This title offers a detailed look at theory and applications necessary for fluid power engineering. This authoritative guide is essential for mechanical engineers who engage in the design and handling of fluid power equipment, which include both hydraulic and pneumatic power types of equipment. "Power Engineering" helps you to build a solid theoretical background, which will enable further study and analysis of static and dynamic performance different fluid power elements and systems. The book features end-of-chapter problems and problem-solving case studies, making it appropriate for graduate level mechanical engineering students.
